

# Stephen Johnson

## **BSCS**

Phoenix, OR 97535

[smjohnson124@gmail.com](mailto:smjohnson124@gmail.com)

Bachelors degree in Computer Science seeking long term employment.

Authorized to work in the US for any employer

## Work Experience

---

### **Manager**

precision fence - Central Point, OR

February 2013 to Present

I currently am a partner at precision fence

I am parting from this employer as a result of the stress from the family business. I am healthy but need a change of work atmosphere.

I have been the lead on hundreds of jobs over the past 17 years. I am most proud of my ability of taking instructions from a work order, communicating with the clients and working through a job and meeting quality and timely deadlines with more than satisfactory results.

I have been very successful because i care a great deal about my roles and responsibilities

I do my best every day communicate well through unexpected situations and deliver regularly.

### **google play**

App overload - Phoenix, OR

2012 to March 2022

I love information technology and have a strong passion for earning a living in IT.

I use android and IOS as my playground, I love the open source and ability to make this platform my own. I developed light applications as a way to challenge myself through college.

### Skills Summary

- html
- css
- javascript
- Game maker studio
- blender
- C++ programming, java, gml
- Troubleshooting compatibility on multiple devices sizes using touchscreen interfaces creating virtual keys and controlling how a user interacts with the application.
- 3d design and printing

These are the languages and programs i have used and learned in my spare time as a personal challenge/hobby.

### **Industrial operator**

Carestream health - White City, OR

March 2010 to October 2013

I operated many different machines control quality, finished goods, material handling and operation flow.

I managed other operators and their machines on a day to day basis, maintained a steady flow of product on three to 6 machines. I am certified on all machines in this department, and have quickly become a person whom many relied on.

I earned over 50% of my bachelors degree using the computers in the break room while regularly working over 60 hours a week here. As well as gained many certifications to earn a higher wage for carestream.
